PARKLAND INTRODUCES DURO-LUX REAL STONE WALL PANELS

MIDDLEBURY, IN - DURO-LUX Stone Panels, the newest addition to the Parkland Performance Walls & Ceilings line, features an attractive, stone-filled, three-dimensional granite appearance with exceptional performance characteristics. It is ideal for a wide range of applications, including home accent walls, fireplace surrounds, distinctive wainscoting, apartment lobbies, mailrooms and other areas that benefit from high-design performance.

The unique laminated surface can be applied to either PVC, gypsum board, lightweight plywood or Parkland's exclusive PLAS-TEX® panel, depending on application requirements. It can be quickly and easily installed with Parkland Performance or other popular brand construction adhesives.

Manufactured in 4'x8' panels, the DURO-LUX laminated surface can be 0.035", 0.050" or 0.090" thick. It's available in six natural colors with a standard matte finish. Because the laminate contains natural materials, all colors are subject to variations in shade and particulate structure.

With a substantial weight advantage over solid stone surfaces, DURO-LUX is easy to handle and can be fabricated using standard hand tools. It features a high resistance to impact, does not chip and can be sanded to remove scratches. Chemical and stain resistant, DURO-LUX is also 100% waterproof. It can be cleaned with solvents and industrial cleaners and renewed with mild abrasive cleansers.

Rated for applications with continuous ambient temperatures up to 150° F. DURO-LUX can withstand direct contact conditions up to 365°F, however some common adhesives may not withstand this extreme temperature. Consult adhesive manufacturers' recommendations for higher heat applications.

DURO-LUX is one in an ever-growing line of products from Parkland Performance Walls & Ceilings, all intended to respect the desire for exceptional aesthetic qualities while addressing the rigors of everyday use of spaces, residential or commercial. More detailed information is available by calling 800-835-4110 or on the web at www.parklandproducts.com.
